### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### In the claims

Claim 22 has been rewritten as follows:

-- 22. (previously presented) An assembly for operating an engine valve comprising:  
a rocker shaft;  
a rocker arm pivotally mounted on said rocker shaft, said rocker arm including a cavity at a valve actuation end;  
an hydraulic lash adjuster slidably disposed in the rocker arm cavity;  
an hydraulic passage provided in the rocker arm, said passage communicating with the rocker arm cavity; and  
means for (a) selectively supplying hydraulic fluid to the passage during a positive power mode of engine operation and (b) venting hydraulic fluid from the passage during an engine braking mode of engine operation, wherein the engine braking mode comprises at least two braking operations. --

The amendment above was necessary to place the claim in the proper form, since the claim was not part of the originally patented claims, it has to be in completely underlined form.
